

The Next Generation of Bike has arrived

# Batteries included!

The uses for the Powabyke are endless and all without the strain and inconvenience of pedalling. Powabyke's unique dual drive system, pure power (twist the throttle and go) or pedal assist (you pedal & the motor helps) gives the rider the choice of less effort or greater range.

## Electric Bikes

### Key Findings & Statistics

#### Leeds University survey

14+ million miles per annum!

**77%** of owners use the bike every day.

**23%** of owners replaced a car with the Powabyke.

**42%** of owners replaced another vehicle with the Powabyke.

**64%** of all distance travelled were for commuting or shopping trips.

**38%** of owners replace the car to commute to work with the Powabyke

The main advantages of the Powabyke are assistance with hills and headwinds, less effort, faster journey times and no requirement to pedal.

Typically a Powabyke will cover 20 miles on a single charge, (in pedal assist mode, you should average over 30 miles) and has a top speed of 15 mph (without pedalling). The powerful 36 Volt hub mounted electric motor powered by our unique 14 amp Powabyke batteries will never fail to impress. Some users have even replaced their second car with a Powabyke. 97% of owners would recommend a Powabyke to a friend.

**The low cost, independent, easy parking, congestion beating and environmentally friendly way to travel in the modern world.**

# The Urban Transport Solution

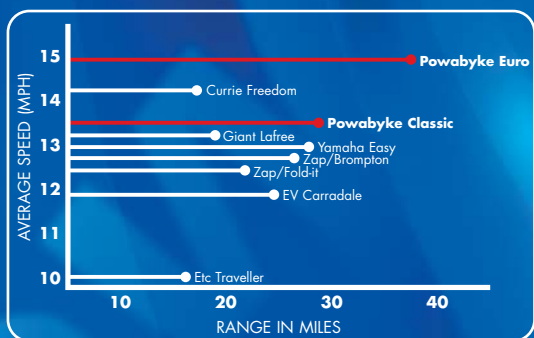

Getting back in the saddle has never been easier with people using Powabykes to ride to work, school, local shops, Police patrols, Pizza & newspaper deliveries, exploring the countryside and even the occasional trip to the pub.

The average Powabyke user covers 1200 miles per annum, replaced three car journeys a week, & provided a journey time faster than a bus and at a cost less than 1.5p per mile to run.

Best of all you do not need a driving license, insurance or road tax and they are free to park! Enhancing the trend towards efficient and greener transport, the electric Powabyke range has been designed to achieve all of the benefits of traditional cycling, but this time without the effort.

Over 20,000 Powabykes are on the UK roads already, providing practical and inexpensive transport solutions.

**Independent test review - A to B magazine**  
Powabyke beat the competition 'hands down' "it's faster & goes further"

## Performance & Cost

Electric bike Journeys were **10%** faster than a bus.

Electric bike Journeys were **20%** faster than a conventional bike.

The perceived running costs by electric bike were **10%** of that by car or bus.
